TUESDAY, DEC. 30, 1890.

THE CENSUS.

Our readers are aware that the regular census of this country, required by law to be taken every six years, is to come off during the present month. Owing to the unexpected failure of the Legislature to pass the bill reorganizing this branch of the public service, the work was thrown back upon the Board of Education, in whose charge it has been for the past twenty-five or thirty years, with very inadequate time for preparation. Under these circumstances it was impossible to enlarge the scope of the census to the extent contemplated by the special commission appointed by the Legislature of 1888, or to make any material changes or improvements in the methods of carrying on the work. The existing statute requiring that the census should be taken during the year 1890, the Board could only organize the service substantially as heretofore, with such additions to the previous schedules as seemed practicable.

Dr. C. T. Rodgers was appointed General Superintendent on the 6th of November, and proceeded immediately to organize the service for the whole kingdom. Outside of Honolulu a district superintendent has been appointed for each of the twenty-three districts into which the country is divided. These gentlemen divide their respective districts into convenient sub-divisions and select sub-agents or enumerators for the actual work of making the enumeration. In this district the General Superintendent appoints the sub-agents and supervises them in person. The various schedules, blanks, instructions, etc., have all been prepared and printed in English and Hawaiian, and those intended for use outside of this district have all been dispatched to their several destinations. This district—Kona, Oahu—has been divided into twenty sub-divisions, with an enumerator in charge of each.

The census is intended to show the actual condition of things as it may exist on the night of Sunday, December 28th. The actual work of enumeration will commence on the following morning. The following extracts from the general regulations issued from the central office will give all needed information. It may be proper to remark for the benefit of those of kicking proclivities that the law provides a penalty of fifty dollars to be imposed by any police or district judge for refusal to answer questions or furnish the information required by the census man.

The census will include all persons stopping at the particular house, premise or place on the Sunday night in question. It includes not only those residing but those who are present at the time. Persons at sea, passengers and crews of vessels in transit among the islands will be returned by the captains or pursers of the vessels. Inmates of jails, hospitals, boarding schools, hotels and lodging-houses, may be returned on blanks furnished in advance to the persons in charge of such establishments.

In addition to the information called for upon the large blanks, the sub-agents are required to count the number of dwelling-houses or inhabited buildings of all kinds, and the number of persons found therein.

HAWAIIAN ALMANAC AND ANNUAL FOR 1891.

We have received a copy of The Hawaiian Almanac and Annual for 1891 and are pleased to find that like Honolulu itself it is larger, more comprehensive, more convenient and more ornamental than in any previous year.

Foremost among the new features of our old companion is a lithographed map of Honolulu showing in different colors the fire wards and election wards of the city with the principal buildings and fire engine stations marked out. Another novelty is the representation in colors of the house flags of the various foreign and inter-island lines of sailing and steam vessels trading regularly to or amongst these islands.

For the use of historians and politicians the list of all Cabinet Ministers who have held offices in the Hawaiian Kingdom from Dr. G. P.

Judd under Kamehameha III. in 1842 to the present Ministry, will be valuable, more especially to those who know something of the occasions of the many changes in the present reign. These are all grouped primarily as under each king, secondarily as in each year, from which we learn that from the accession of King Kalakaua in February, 1874, to the present date no less than seventy Cabinet commissions, acting, interim or positive have been signed or about four and a half changes per annum, including the names of some of the worst as well as many of the best men who ever held office in these islands.

A similarly arranged table of the occupants of the Supreme Bench is given from Chief Justice Hon. Wm. L. Lee in January, 1848, to the present bench. Owing to the arrangement however the Supreme Court of five Judges, or indeed its present status of four Judges, is not to be found without trouble and comparison of date.

The history of land titles in the Kingdom from the ancient system to the present day prepared by Hon. W. D. Alexander is both interesting and instructive.

The retrospect of the past year is ample and shows the spirit of advance and security developed since 1887. Other articles and notices particularly that of the Hawaiian band are very interesting.

The book is badly indexed, the table of contents being arranged by the pages instead of the subject. Thus if one wants information on postal matters for instance, one has no alphabetical guidance. "Comparative" tables appear in three different parts of the table. "Hawaiian" on four, "Table" or "Tables" appears on the first or second word of a heading in half a dozen different places. With a better index there would be little left to make this a model book of Hawaiian information.

LECTURE.

Christmas Customs and Christmas Carols at the Y. M. C. A.

F. M. English, B. A., delivered his lecture on "Christmas Carols and Christmas Customs" Tuesday evening at the Y. M. C. A. hall. The attendance was not very large which must be attributed to the windy weather prevailing. However, those who ventured forth to hear Mr. English expressed themselves glad that they did not remain home. He read a well prepared sketch of the Christmas observances in England many years ago. He said that no man had a right to be unhappy at Christmas and that one of the best possible gifts to a friend is to cancel ill-feelings. His reading was interspersed at times by his rendering musical selections. His musical sketch of society life was very laughable: his imitations of Franco-English and Anglo-German songs were quite comical, and put the audience in good humor throughout the its rendition.

A selection from Dickens' Christmas carols was given in a humorous style. This concluded the evening's entertainment.

Not Forgotten.

With part of the contributions from the Central Union Sunday School, and donations from Mrs. S. M. Damon and others, a Christmas tree was given to the inmates of the Kalihui Receiving Hospital. Dolls, knives, candies, neckties, and fancy boxes were given to the children. Apples, oranges, nuts, cakes and candies, and silk handkerchiefs were given to the older ones, nearly fifty in all, crowding to its utmost capacity the little chapel in which the exercises were held. Singing of Gospel hymns and brief speeches pertinent to the occasion made the hour pass quickly and pleasantly, and Hawaii Pono formed the fitting close as the noon bell rang.

Must Pay Postage.

Postmaster Backus calls the attention of the public to the fact that the practice of mailing letters on board ocean-going steamers, particularly those for Australia and China, at the last moment before sailing, is prohibited by regulations of the Post-office Department, unless the following conditions are complied with: Letters mailed in such a way without passing through the post-office first must either relate to the cargo of the vessel upon which they are placed, or they must be inclosed in a denomination sufficient to pay the legal rates of postage.—Alta.

Director-General Davis of the World's Fair has completed the regulations to be sent to foreign countries with the President's proclamation. The rules are an epitome of the experience of the successful expositions of the past. The financial report of the directors will be ready soon, and all necessary documents will be sent to the President.

A New Cooking Stove!

Messrs. KING BROS. have been appointed
Agents for theJEWEL GRAND
GASOLINE COOKING STOVES

Which they are now offering for sale.

The following are a few of the merits of
the Stove:

It requires no Chimney, there being no
smoke to carry off.
It does not blacken the cooking utensils.
By the simple turning of a screw and the
application of a match the Stove is ready
for use.

Water can be boiled in five minutes from
the time the fire is started.
Any kind of cooking can be done on this
Stove, that can be done on any other.

The expense of fuel is reduced to between
ten and fifteen cents per day, and in some
cases to much less.

No cutting of wood or bother about coal
with this Stove.

The fuel comes in cases like kerosene oil,
and a year's supply can be easily stored in
a very small space.

The best refined Gasoline is the fuel used,
with which there is no more danger than
with kerosene oil.

For people who do their own cooking this
Stove can not be beaten, and we venture to
say that after they have gotten over the
prejudice of the use of Gasoline, that they
will not give the Stove up for a wood and
coal stove under any consideration.

There are at present six of these Stoves
in successful operation on the island of
Kauai and one in Honolulu, the owners of
which will gladly furnish information to
those wishing to know more about the
Stove.

For further particulars apply to

KING BROS.,
Hotel Street, Honolulu.
P. O. Box No. 63. 1352-3m
